

## TEACHERS' PROFESSIONAL DEVELOPMENT

Time Duration: 1 day (8:00-12:00am, 1:00-5:00pm) per topic, good for 5 days

### Seminar Description:

This 5 day teachers' professional development seminar-workshop provides both new and experienced teacher participants with the key principles on the nature of teaching in relation to classroom realities as experienced by the teachers themselves. There are 5 important topics that cover the management of instruction as reflected in varied classroom scenarios. Throughout the workshop, the participants will apply the principles in real classroom situations and will do a demonstration on the strategies they will employ in these scenarios.

### Learning Outcomes (LO's):

1. List down classroom situations that reflect the topic presented.
2. Rank the gaps identified based on their frequency of occurrence.
3. Design a classroom management plan that documents and monitors these issues identified.
4. Present the workshop output to the group through a teaching demo

| Topics  | Learning Methodology  |
